

LITHOS

Monolithic video entry panel

Lithos is the colour video entry panel created for the X1 two-wires system. Compact and slim (30 mm thick on the wall), it is perfect for any environment, thanks to the design with soft lines and the elegant finish in brushed stainless steel.

Lithos, which can either be wall-mounted or recessed and equipped with single or double buttons according to the type of system, has an intercom function without extra devices and can be used to create systems designed to handle up to 4 lines.

COMPATIBLE SYSTEMS

2 wires

Technical characteristics

Dimensions

(WxHxD) 99x207x30 mm wall-mounted
(WxHxD) 135x243x6.5* mm recessed

* Embedding box: depth 54.5 mm; protrusion from wall: 3.5 mm

Plus

Installation

The new Lithos entry panel can either be wall-mounted or recessed, offering maximum adaptability to any type of setting and minimum protrusion. Thanks to the special embedding box, Lithos is only 6.5 mm thick, and its soft, curved lines transform it into a discreet but elegant decorative item.

recessed

Unmatched video quality

With its ultra-modern sensors and built-in digital image-processing algorithms, Lithos guarantees superlative video quality in any ambient conditions, day or night.

The sophisticated light guide system, developed jointly with the Plast Optica Research Centre (a division of FIAT's research centre), guarantees perfect night-time illumination. The latest digital sensors, together with sophisticated image-processing algorithms, guarantee superlative video quality in any ambient conditions.

Finishes

With its soft lines and finishes in brushed stainless steel, Lithos is a truly elegant and refined entry panel.

Impact-resistant and watertight

Lithos is built to last. With its incredibly robust construction and IP54 protection rating.

Wide viewing angle

Lithos features the "wide eye" system (angle of lens aperture: 77°), which makes it possible to use the camera to display a wide field of vision (for example, from a distance of 50 cm from the entry panel, the camera can capture an image 100 cm in width and 80 cm in height).

Plus

Single or double pushbuttons

Lithos can come with single or double buttons according to the type of installation to be created (up to 4 lines). They can easily be replaced, for example to insert name tags.
